Humans of GLAAZ

Hunter Tuepker has accomplished much in her first year here at GLAAZ. She co-founded Tech Club, which inspires and helps girls to discover their potential for a career in technology. The club also allows students to develop skills that will help in this digital age, such as, programming, coding, and how to efficiently use computers. Additionally, Hunter is this year's Volleyball Captain. As captain, Hunter must set the example, keep a positive mindset, and help her teammates succeed.
